## Summary

Motivated College student with a passion for Technology. Proven ability in coding and networking projects, seeking opportunities to expand knowledge and contribute to innovative solutions.

## PERSONAL INFORMATION :

- **Course:** Bachelor of Science in Information Technology (BSIT)
- **School:** Laguna State Polytechnic University – Santa Cruz
- **Year Level:** 1st Year College
- **Nationality:** Filipino

## Skills :

- Basic java Programming
- Vibe Coding method
- Configuring routers and switches
- Willingness to listened to others
- Teamwork and communication

## Projects:

- **Secure VPN Design for Remote Work:**  
Configures a secure, optimized virtual private network to protect remote users from common network attacks.
- **Blockchain-based Secure Data Sharing:**  
Implements a decentralized network architecture to secure data exchange and prevent unauthorized access.
- **Automated Vulnerability Scanner:** Uses tools like Nmap, OpenVAS, or Nessus to identify network weaknesses and misconfigurations.

## Educational Background:

### College

Laguna State Polytechnic University - SCC

### High School

Talangan Integrated National High School

### Elementary

Crisanto Guysayko Memoryal Elementary School
